

Equivalently you can start counting from -1 going bottom to top

- `n_column (nx) = 6`
- `n_row (ny) = 5`
- Indexing convention
[row, column]

- $n_x = 6$
- $n_y = 5$
- $dx = 100$
- $dy = 100$

Equivalently you can start counting from -1 going right to left
